

Dear Pet Food Industry Personnel :

As part of our continued effort to share knowledge and experience with our customers, **Wenger** Manufacturing is pleased to present our annual three-day *Pet Food Processing Technology Seminar*

on September 11 - 13, 2018. This course, which includes both classroom and hands-on training, will be held at the ***Wenger Conference Center*** in Sabetha, KS, and is open to all plant management, operations and maintenance personnel involved in the pet food industry. This course will offer an “Operations” and a “Maintenance” track.

Offering these dual curriculum tracks allows the course material to cover topics in greater depth and give attendees access to more information that is specific to their individual jobs and fields of interest.

See the link below regarding preliminary agendas, on-line registration form and other details.

### **[18th Annual Wenger Petfood Processing Seminar](#)**

If there are others that you feel would benefit from this seminar, please feel free to pass this information on to them.

Seating is limited for both tracks, so early reservations are encouraged.

If you have any questions regarding the course, Tasha Schurter would be happy to answer them for you. Her contact information is: [tschurter@wenger.com](mailto:tschurter@wenger.com) or 785.284.2133 ext. 434.

We look forward to meeting your extrusion training needs through this course!
